

CISSP Certification Bootcamp

Because you are ready to take your network job to the next level.

DMACC's Certified Information Systems Security Professional exam prep class will help you advance your career. Learn from our CISSP expert with 15 years of real-world experience. Cover all ten domains of the CBK while acquiring what you need to pass the exam.

CISSP is widely recognized as the 'gold standard' of information security certifications. Earning it will identify you as having the technical ability, knowledge, and experience to implement top-notch solid security practices, protecting networks, systems, and information.

You should register for this CISSP Certification if you are or want to be an: IT consultant, manager, security policy writer, privacy officer, information security officer, network administrator, security device administrator, security engineer, and other network security professionals whose positions require CISSP certification.

The CISSP meets Department of Defense Directive 8570.1 for certified professionals.

**Attendees will receive as part of the class the
TestOut CISSP LabSim Training Suite (\$695 Value)
including additional training videos, study guides
and practice exams.**
